Screen Music Compose Fiction & Documentaries

WHO AM I ?

Composer, fascinated by the orchestra and synthesizers since childhood, I have been evolving in music for the image for almost 10 years and have exceeded 30 programs to my credit, including feature films and documentaries with a national (TF1, France TV, Canal+, etc.) and international (USA, China, Turkey, etc.) broadcasting. That said, and fortunately, I continue to learn every day and that's also what I like about this job. It's endless and teeming with creative human encounters. So it's a perfect job for me.

I speak fluent English which allowed me to be hired on several foreign productions (USA, China, Switzerland, Costa Rica, Turkey).

I like going to film sets to meet the crews and actors. I also take advantage of it as soon as my schedule allows me to soak up the atmosphere of the films as closely as possible. To sum it up: I'm a movie and music nut!

Close to my roots, I have my own professional studio in Brittany, the Planetarium Studio, with an area of 171m² including 29m² of accommodation allowing me to host directors and other artists in complete autonomy for immersive work sessions at project milestones.

SKILLS

Technical :

Pianist & keyboardist
Symphonic orchestration
Synthesizer programming

Artistic:

Composition of themes
Strength proposal
Requirement and precision

Human:

Listening to the director and the producer
Sens of collective and collaborative
